

Your mobility needs
– our solutions.
Smart
combinations.

We are happy to advise you.

Benefit from the central position of your company in the transport system and be inspired by our mobility offers.

For staff commuting, business travel or customer mobility, we provide holistic and comprehensive consulting and develop tailor-made offers for your company. We provide an optimal combination of transport modes from the first to the last mile – for smart, affordable and sustainable mobility at your company.

Our offers.

Services.

Mobility consulting: an initial analysis of your mobility needs.

- Commute analysis: get to know road and rail options.
- Online survey on mobility: how do people travel and why?
- Rethinking fringe benefits: finance use of public transport rather than free parking?
- Parking problems now a thing of the past – thanks to new approaches to mobility.

Ideas for combined mobility.

- Smart combinations of rail and road – with an individual mobility package.
- Park at the station, pay without cash using a SwissPass and enjoy a relaxed train journey to your destination.
- Bike parking at the station: pedal your way to the train.
- Sharing offers: Mobility Carsharing, bike sharing.

Online ticket purchasing for companies.

- No more settling expenses, overview of travel costs at any time:
